Mosin-Nagant M91/30 Sniper Rifle, Cal. 7.62x54R
(2 Models: Russian with scope; Hungarian without scope)

Mosin-Nagant M27 Rifle, Cal. 7.62x54R

Originally developed for the Czarist armies almost a century ago, Mosin-Nagant rifles have seen service with Soviet and Warsaw Pact troops. The many models from 1891 to 1944 provide a compact half-century historical review of gun technology.

Russian M91 Rifle, Cal. 7.62x54R

"The original M91" produced under contract by several factories around the world, each with factory markings on the receiver. Saw service as late as WWII and was a favourite of partisans behind Nazi lines. 5-rd. fixed box mag. Blade front, leaf rear sights. 131 cm (51.37") long; 80 cm (31.6") barrel. Weight: 9.26 lbs.

MOSIN-NAGANT

Russian Originals and Variations

Mosin-Nagant M39 Rifle, Cal. 7.62x54R

Lighter barrel version was the last modification of the M91 designed for use by the Finnish services. Each M39 off the production line was test-fired. If it did not group 3 shots within 100" at 100 metres, it was rejected. Extremely exacting standard of performance. Changes to the front and rear sights to allow windage adjustments. New handguards and ingeniously designed conventional pistol-grip stock give this rifle a modern look. 118 cm (46.5") long; 68.6 cm (27") barrel.

This Indian 1A Rifle is very similar to the L1A1 F.N. in design, look and operation.

Developed in 1963 by the Indian Small Arms Design Group. They have used the metric & inch examples of L1A1's & FN FAL'S for developing their own weapon, and started manufacturing them in the Ishapore Rifle Factory near Calcutta. This was a turning point and a major update in weaponry for the Indian Army. The 1A is still in production today.

Section View of our Telescopic sight: Details are important

These are the essential optical components: eyepiece, reversal lens system, reticle/focal plane of objective lens, and objective lens.

The ultimate scopes for hunting-target, silhouette or varmint shooting. Rugged steel construction, excellent optics, and precise click adjustments meet the requirements for the serious shooter. A five step process assures a durable, corrosion resistant finish.

A unique reticle control indicator always keeps you aware as to how much adjustment you have left and also makes it simpler to center your scope.

Available in fixed-power or variable power models, and with choice of reticle (see chart at right). Recommended for hunting are reticles number 6 and 8 as they are the best compromise for most hunting conditions. Reticle number one is tapered so as to cover less of the target. Comes complete with clear view lens caps.

**Ceska Zbrojovka Model 70
Semi-Auto Pistol, Cal. 7.65 mm
(.32 ACP)**

Modified version of the Ceska Zbrojovka Model 50. Used by the Czech Police. Features a thumb safety and live round indicator which protrudes from the side of the slide. The model 70 has a round hammer spur with deeper burrs to facilitate cocking in single action. The grips, which are checkered for a sure grip, are flat near the top to make it easier to reach the safety with your thumb. 9-shot. 167 mm (6.57") long; 95 mm (3.75") barrel.

Pistols

Founded in 1949, Heckler & Koch are leaders in high-technology weapons, and are among the finest gun designers and manufacturers in Europe. A large part of HK's splendid reputation is due to the exclusive DRLB (delayed roller-locked bolt) system – the same technology that gives their HK hunting and sporting rifles their unexcelled reliability and precision.

P7 Series Semi-Auto Pistols, 9 mm Para

A revolution in handgun technology; HKP7 can be drawn, cocked and fired in one continuous motion, simply by squeezing the handgrip and pulling the trigger. No hammer to pull back, no separate safety to fumble with. Nor will it fire if accidentally dropped or bumped, even with a round in the chamber. Smooth acting with no external moving parts, it stays on target from first round to last. Novel 3-dot sighting system works fast even in poor light. Features an ambidextrous magazine release behind the trigger guard, developed for the New Jersey State Police. Models Available:

P9S Series Semi-Auto Pistols

Originally designed for West German Police, used also by U.S. special forces. Fast and easy; cocks with lever on left or with trigger in double-action mode; protruding pin indicates gun is ready to fire; thumb safety; polygonal profile barrel – used also in other pistols – provides increased velocity, ease of handling, and longer barrel life. Combat-style sights make target alignment fast and easy. 102 mm (4") barrel. Target Models have trigger stop, with adjustable trigger and rear sight. All models come with spare magazine.

P7K3 Semi-Auto Pistols

Its design and operation are largely identical to the P7M8 and P7M13 pistols. Has an inertia bolt without gas piston. Conversion kits are available which permit the change of calibre by simple barrel and magazine exchange. When changing to calibre .22LR, apart from the barrel and the magazine, the slide must also be exchanged. This .22 LR calibre slide is specially designed for intensive training fire of inexpensive rimfire cartridges. The barrel is provided with a linear floating chamber to increase safe functioning. Complete identical handling from left and right, therefore, suitable for both left and right handed shooters. Ideal for sport, self-defence or practice shooting.

FAMOUS SEMI-AUTO BENELLI SHOTGUNS

Montefeltro Super 90 Semi-Auto 12 ga. Shotguns

Ingenious new design features (one-piece lower receiver, rotary head) have been incorporated, without in any way affecting the inertia operation of the Benelli system. Models are available in the varichoke or magnum versions. A special easy to use cut off device enables the cartridge in the chamber to be replaced rapidly with another from the magazine; a red disc visible on the cut-off lever indicates that the hammer is cocked. A shim kit enables the drop of the stock to be altered up to 50 or 60 mm (2 1/2") with the greatest of ease, with no need for manual or mechanical modifications to the wood. The lower receiver is made of special ergal alloy, blacked finished. The nickel-chrome-molybdenum steel barrel is chrome-plated. Stock and fore-end are made of selected walnut, handchecked with scratch proof polishing.

Super 90 Varichoke with 24 inch ventilated rib barrel and full choke tube (2 3/4" chamber).
